

AtliQ Hardware

AD HOC ANALYSIS

(CONSUMER GOODS)

Presented by **Yash Ghole**

About

Atliq hardwares (imaginary company) is one of the leading computer hardware producers in India and has expanded well in other countries too.

However, the management noticed that they do not get enough insights to make quick and smart data-informed decisions. They want to expand their data analytics team by adding several junior data analysts. Tony Sharma, their data analytics director, wanted to hire someone good at both tech and soft skills. Hence, he decided to conduct A SQL challenge, which will help him understand both skills.
